Thanks Ben...funny that they didn't include any program people in EPA. Maybe we need to have a meeting with Pennington and Scott Thompson.

Looks like they want to restart discussions on an SMOA and also want to set up a meeting to discuss 3 specific sites: Wilcox Refinery, Hudson Refinery and Tulsa Fuels. I understand we have had discussions with the State on these but they seem to want something more formal.

ODEQ has been missing out on some opportunities to recover costs over the years, and this letter is our effort to correct that situation going forward. I would appreciate it if you would share the letter with the appropriate people at Region 6, and let me know if there is anything else ODEQ needs to do to facilitate this. Thank you for your help.
